20190316 [CNCA Notice No.6 2019] CNCA Modify Test Standards for CCC Automobile Products

-CCC Requests 9 Tests on EMC, Telecom Protocol, Interoperations for Automobiles Products
认监委 2019 年第 6 号公告《认监委关于调整汽车产品强制性认证依据标准的公告》

CCC regulator CNCA involves GB19260-2016 (Low floor and low entrance city bus structure requirements 低地板及低入口城市客车结构要求 etc. 9 tests standards on EMC, Telecom Protocol, Interoperations requirements for Automobiles Products by CNCA Notice No.6 2019 since **6th March 2019**.

It requires that,

1. Since the date of notice released (6th March 2019), the 9 test standards (refer to the attachment) are listed in <Implementation Rules for Compulsory Certification of Automotive> CNCA-C11-01) and the reference standards of automotive products in the 2014 CNCA announcement No. 45 – 16 Dec 2014 Annex: Compulsory Product Certification (CCC) Categories Description and Range Table [CNCA Notice No.45 2014]. The certification bodies and test bodies shall comply with accordingly.
2. There is **one-year transition period** for the certified products since the notice released date. Enterprises could carry out certificate conversion work in advance according to their own wishes. The conversion of certification certificates shall be carried out in a natural transitional manner such as expiration of certificates, standard revisions, and product changes. The conversion of relevant product certification certificates shall be carried out in accordance with the "Announcement on the Relevant Requirements for the Revision of the Compulsory Product Certification (CCC) Documents" [CNCA Notice No.4 2012]. If the product fails to meet the requirements within the prescribed time limit, the designated certification body shall handle it in accordance with the requirements of the Compulsory Product Certification (CCC) Management Regulations [AQSIQ Order No. 117]
3. For the certified automobile products, if there is no new test item, no additional test is required, and the new version of the certificate can be directly exchanged; if there are new test items involved, additional tests are required, and the new version of the certificate is issued after the test. The relevant products that have been manufactured, sold and imported before the end of the transition period do not need to be renewed for compulsory product certification (CCC) during the sales process, but should comply with the requirements of other relevant laws and regulations.
4. by June 30, 2019, The designated certification bodies and laboratories shall revise detailed implementation rules in this announcement according to the requirements of the "Notice on the Relevant Requirements for the Revision of Compulsory Product Certification Documents" [CNCA Notice No.4 2012], and report to CNCA the ability to detect new incorporation standards, and the status of obtaining laboratory qualifications for filing.
